

ASM210X Thermocouple Repeater/Isolator

- Supply voltages: 24Vdc $\pm$ 2.5V
- AMELEC Standard 10 year warranty

Technical Specifications

Input

Any signal developed from a thermocouple greater than 4mV.
Automatic cold junction compensation fitted as standard.

Typical Inputs

0 to 100C, 0 to 200C, 0 to 500C, 0 to 1000C Type J, K, T, R, S thermocouple

Output

Isolated repeat of input temperature and thermocouple type.

Accuracy

< $\pm 0.1\%$ span

Dimensions

22.5w x 75h x 110d (mm)

WIRING
